

MAHDI TAHAVORGAR

Senior Front-End Engineer | Team Lead | React & TypeScript

Dubai, UAE · mahditahavorgar@gmail.com · +971 585250180 · [LinkedIn](#) · [GitHub](#)

SUMMARY

Senior Front-End Engineer and Team Lead with 7+ years of experience building high-performance, real-time web applications using React, Next.js, and TypeScript. Proven track record delivering complex data visualization systems (110+ sensors), crypto trading platforms, and driving major performance improvements (80% speed increase, 87.5% memory reduction). Strong technical leadership experience mentoring teams of 4 engineers and owning end-to-end frontend architecture.

EXPERIENCE

Senior Front-End Engineer / Team Lead | Saxon Software

Oct 2022 – Present · Dubai, UAE · On-site

- Promoted to Team Lead; currently leading a team of 4 Front-End Engineers with ownership of code reviews, technical interviews, and mentorship.
- Architected and led full front-end development of a high-performance drilling and mud logging platform used globally by field engineers.
- Built real-time data visualization dashboards monitoring 110+ industrial sensors via WebSockets, including custom charts and zoom-based analysis tools.
- Achieved 80% improvement in application speed and UX scores through architecture redesign, state management optimization, and code refactoring.
- Reduced memory consumption from 400MB to 50MB (87.5% reduction) by refactoring legacy code and optimizing high-frequency data rendering.

Senior Front-End Engineer / Technical Lead | Fibodex

May 2020 – Jun 2022 · Karaj, Iran · On-site

- Architected and led front-end development of a scalable real-time cryptocurrency trading platform using React, TypeScript, Redux Toolkit, and Next.js.
- Implemented Server-Side Rendering (SSR) with Next.js, achieving a 50% increase in organic traffic through improved SEO performance.
- Built high-performance real-time trading interfaces and integrated TradingView charts for low-latency market data visualization and analytics.

Founder & Lead Developer | Gym Mate (Startup)

May 2019 – May 2020 · Karaj, Iran

- Founded and bootstrapped Gym Mate, a sports social networking platform, driving product vision from concept to launch as sole technical founder.
- Built and launched a cross-platform mobile application using React Native (frontend) and Node.js + MongoDB (backend), focusing on performance and user experience.

Front-End Developer | Azadeh Travel Agency

Jan 2018 – May 2019 · Karaj, Iran

- Developed user interfaces and web applications using JavaScript and React, focusing on responsive design and cross-browser compatibility.
- Delivered multiple frontend projects including web prototypes and a native mobile application, collaborating with designers and backend developers.

OPEN SOURCE CONTRIBUTIONS

Published 4 public npm packages | [react-canvas-timechart](#), [react-canvas-gauge-3d](#), [react-native-gauge-3d](#), [react-captcha-slider](#)

TECHNICAL SKILLS

Frontend: React.js · Next.js (SSR/SSG) · TypeScript · JavaScript (ES6+) · Redux Toolkit · Tailwind CSS

Real-time & Data Viz: WebSockets · TradingView · Real-time Charts · Sensor Dashboards · Canvas API

Architecture & Leadership: Front-End Architecture · Performance Optimization · Code Refactoring · Team Leadership · Mentoring

Tools: Node.js · Docker · Git · CI/CD

EDUCATION

B.Sc. in Electronic Technology Engineering | Ghiaseddin Jamshid Kashani University | Graduated 2016
